

Diversity

Diversity Strengthens Us. Bailey Glasser is committed to creating a work force where talented and exceptional individuals from diverse backgrounds and with distinct perspectives can thrive. Our diversity initiatives include in-house programs to support the professional development and advancement of women and other affinity groups at the firm, sponsoring firm members for events focused on inclusion, and a diversity partner who leads these efforts through hiring, promotion and training.

We operate in a multicultural world, with an exponential pace of change. Our team is stronger and best meets our clients' needs when our perspectives and our work encompass a rich variety of diverse voices and ideas.
