

Natural Gas Pipeline Co. of America (Kinder Morgan) v. Petco Petroleum Corp.

Bailey Glasser represented Petco Petroleum in a series of cases relating to hydraulic fracturing and the migration of NGPL's storage gas into Petco's oil and gas reservoirs in a 48-square mile former Exxon oil field. The firm held NGPL's \$3.4 million damages claim to \$420,000 in one case, and vindicated Petco's development rights to a substantial shale gas formation in the other case on summary judgment.
