

# Katherine Charonko Helps Design of Innovative Case Management Tool

02.07.2020

Legal technology leader DISCO announced the launch of DISCO Case Builder. DISCO Case Builder is a suite of case management tools that empowers legal teams to build better stories, work smarter, and leverage past work to help clients win.

Bailey Glasser Partner Katherine Charonko assisted in the development process for this product and was quoted saying that "DISCO has created an intuitive solution that will help our legal team work faster and smarter to help our clients win."

Katherine assists clients and other attorneys implement structured and conceptual analytic functionality for numerous aspects of e-Discovery, including document review strategy, use of technology and technology assisted review (TAR), collection and preservation strategy, Electronically Stored Information (ESI) protocols, and training and implementation of e-Discovery practices.
